2006-2012

THE PLAN FOR MOUNT ST. MARY’S UNIVERSITY

Approved by the Board of Trustees June 1, 2006
Mount St. Mary’s University is a community characterized and driven by its mission as a Catholic university in service to students and the world.

The planning context for this strategic plan includes the 2004 Vision Statement with its clearly articulated performance standards designed to raise the level of excellence at the Mount; the 2004 designation change to Mount St. Mary's University to more accurately reflect the Mount's mission and better position the campus for future growth; and the 2005 Middle States Commission re-accreditation self-study and review, which resulted in full accreditation until 2015, with a few recommendations. The work involved in these efforts has well positioned the Mount to be able to identify its past strengths and future potential.

Mount St. Mary’s University has identified key priorities that will be the measure of its success in the next five years. Each includes several goals and objectives.

Strategic budgeting will ensure the Mount has the resource base to accomplish the plan. The Mount will use a budget cycle that annually identifies milestones for each goal and assigns the necessary resources to ensure progress toward the outcomes of each goal.

The Mount will measure its success by annually developing objectives and regularly measuring its performance against the indicators established by the Board of Trustees. These indicators will also be measured annually against the Mount's aspirational colleges and universities.

Frederick Soup Kitchen
From a Catholic perspective, truth reveals a call to serve others, especially the poor and vulnerable, in the pursuit not only of justice for all but also of Christ-like love that exceeds the demands of justice.
