Fall 2024 Full Semester Study Abroad Advising Guide – Buenos Aires, Argentina

Please note that study abroad students are not eligible for Emmitsburg or Frederick campus synchronous courses (online or in person) without approval from the professor and chair of the department. The professor would need a liberal leave policy for study abroad students, allowing them to take more absences than your standard student. Usually, this occurs as an independent study, tutorial, or as a separate set of requirements (e.g., alternative assignments to make up for the absences). Additionally, please note that students abroad may have spotty internet service or be in a different time zone.
