Complaint Process for Students

United States Department of Education Regulation 34 CFR § 668.43(b) requires institutions of higher education authorized under Title IV of the Higher Education Act to make available to enrolled or prospective students upon request, contact information for filing complaints with its accreditor and with its State approval or licensing entity and any other relevant State official or agency that would appropriately handle a student’s complaint.

Mount St. Mary’s University has listed multiple alternatives for individuals who wish to submit complaints regarding the educational program at Mount St. Mary’s University. The Mount expects that any student complaint will be filed in accordance with any procedures currently in place at the institution before resolution is sought from a state agency or the University's accreditation body. In the absence of a procedure, the complaint should be filed with the Office of the President.

Recommended Content of Complaint

In order to facilitate an effective response, initial complaints should include the complainant’s full name, address, and contact information, including email and telephone number. Complaints should specify enrollment status; that is, whether the complainant is a current, former or prospective student. The description of the complaint should include dates and university officials that were involved or have been contacted. Any supporting documentation, such as emails or other correspondence, should be included in order to help others understand the events leading to the complaint. Last, the complainant should state what, if any, remedy is sought.
